

CYLINDER STORAGE AND HANDLING EQUIPMENT

CYLINDER STORAGE CABINETS

ORDERLY STORAGE AND PROTECTION OF INDUSTRIAL GAS CYLINDERS

Protect and store your cylinders in safety with our tamper-proof Cylinder Storage Cabinet. Steel cabinets are painted safety yellow for high visibility. Each cabinet is stenciled to indicate flammable storage. The steel cabinets are constructed of 13 gauge expanded metal sides with a solid 12 gauge steel top. Our **MECO OMAHA** designed padlock latch assembly allows you to easily secure your cylinders. The Cylinder Storage Cabinets feature foot plates punched for securing the unit to the floor. Cabinets conform to OSHA Subpart 1910.110 requirements and NFPA 58-79 standards. The all-steel cabinets ship either set up or knocked down.

• SET UP MODELS

HORIZONTAL STORAGE CABINETS FOR LP CYLINDERS					
MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CSC4H	4	37"	32½"	39"	195 lbs
CSC8H	8	70"			294 lbs
CSC12H	12		49"		384 lbs
CSC16H	16		65"		547 lbs
VERTICAL STORAGE CABINETS FOR GAS CYLINDERS					
CSC1V	5 - 10	70"	32½"	39"	230 lbs
CSC2V	10 - 20		65"		423 lbs

• SHIP KNOCKED DOWN IN A CARTON

HORIZONTAL STORAGE CABINETS FOR LP CYLINDERS					
MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CSC4H-KD	4	37"	32½"	39"	201 lbs
CSC8H-KD	8	70"			304 lbs
CSC12H-KD	12		49"		403 lbs
CSC16H-KD	16		65"		557 lbs
VERTICAL STORAGE CABINETS FOR GAS CYLINDERS					
CSC1V-KD	5 - 10	70"	32½"	39"	235 lbs
CSC2V-KD	10 - 20		65"		424 lbs

CYLINDER PALLET RACKS

SECURE, EASY STORAGE AND FORKLIFT MOBILITY

MECO OMAHA Cylinder Pallet Racks hold cylinders up to 9" in diameter securely in place for easy storage and mobility. Hinged dividers provide convenient access to individual cylinders from either end. Units are all double welded steel construction. 7 gauge steel fork pockets accommodate forks up to 6" wide allowing storage and delivery with your forklift. Select models with two swivel/two rigid casters for additional maneuverability. Ships completely assembled; orange enamel finish.

• 19³/₄" CLEARANCE REQUIRED BETWEEN FORKS

MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CP4	4	41"	34"	23"	156 lbs
CP6	6			33"	204 lbs
CP8	8			43"	250 lbs

• WITH 4" HARD RUBBER CASTERS • 1500 LB CAPACITY

MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CP4-C	4	46"	34"	23"	177 lbs
CP6-C	6			33"	224 lbs
CP8-C	8			43"	272 lbs

CYLINDER TRUCKS

EFFORTLESSLY MOVE 6 OR 8 HEAVY CYLINDER BOTTLES WITHOUT THE AID OF MECHANIZED EQUIPMENT

Choose a double welded MECO OMAHA Cylinder Truck to handle cylinders up to 9¹/₄" in diameter. The 1/4" steel deck and 1" square tube superstructure are built for durability and years of service; a 3/4" diameter push handle provides comfortable operation. Cylinders are held safely in place by two heavy duty chains 37" above the deck. Both models roll smoothly on two swivel/two rigid phenolic casters, wheels have roller bearings.

A floor clearance of 1¹/₂" on the **six cylinder model** makes loading and unloading easy; truck is held securely in place with a floor lock.

A 10" wide fold-down ramp on either side of the **eight cylinder model** allows cylinders to be loaded without effort. Brakes on the swivel casters keep truck stationary.

Ships assembled; orange enamel finish.

• 1500 LB CAPACITY

MODEL NO.	NUMBER OF CYLINDERS	WHEELS	HEIGHT	WIDTH	LENGTH	WEIGHT
CT-6	6	6" x 2" Phenolic	42"	24"	46"	173 lbs
CT-8	8	8" x 2" Phenolic			60 ¹ / ₂ "	268 lbs
